

Vestry

Modern property management for independent landlords

Getting Started Guide

Sign up · Add properties · Invite tenants · Track payments

Welcome to Vestry

Vestry helps independent landlords manage their rental portfolio in one clean, modern app. This guide walks you through the five steps every new landlord needs to complete to get fully set up.

■ App URL: <https://vestry.app> · Works on desktop and mobile browsers. No download required.

What you can do in Vestry

FEATURE	DESCRIPTION
Dashboard	Live snapshot of collected rent, outstanding balances, and net income
Properties	Add and manage your rental units with address, type, beds/baths, and rent
Tenants	Store tenant contact info, move-in date, and unit assignment
Leases	Track lease start/end dates, monthly rent, deposit, and renewal status
Payments	Record every rent payment with method, date, and status
Expenses	Log maintenance, repairs, and other property costs by category

Step 1 — Create your account

1 Go to vestry.app

Open your browser and navigate to <https://vestry.app>. You'll see the sign-in screen.

2 Click "Create account"

On the sign-in page, click the "Create account" tab at the top of the form.

3 Enter your details

Fill in your email address and choose a strong password (at least 8 characters). Click "Create account" to submit.

4 Check your email

Supabase sends a verification email. Click the link inside to confirm your address. Return to vestry.app and sign in with your new credentials.

5 You're in

After sign-in you land on the Dashboard. Your account starts on the Free plan, which includes 1 property.

■ Demo mode: Want to explore first? Sign in with `demo@vestry.app` / `vestry2024` to see a pre-loaded portf

Your account at a glance

FIELD	WHAT TO ENTER
Email	The address you used to sign up — also used for login
Password	Change anytime from Settings → Security
Plan	Free by default. Upgrade in Settings → Plan to unlock more properties

Step 2 — Add your first property

Every tenant and payment is linked to a property. Add your properties before adding tenants or recording payments.

1

Open Properties

Click "Properties" in the left sidebar.

2

Click "Add property"

A form slides open. Fill in the fields below.

3

Save

Click "Add property" at the bottom of the form. The property appears in your grid immediately.

Property form fields

FIELD	WHAT TO ENTER
Property name *	A short name you'll recognize, e.g. "Oak Street Duplex"
Street address *	Full street address, e.g. "2406 Oak St"
City / State / ZIP	Optional but recommended for reports
Property type	Single Family, Duplex, Multi-unit, Condo, Townhome, etc.
Total units	Number of rentable units in the building (1 for single family)
Beds / Baths / Sq ft	Unit details for the first (or only) unit
Monthly rent	Asking rent for the first unit

■ Multi-unit buildings: Add the building once with "Total units" set correctly. Individual unit rent is stored with the

Step 3 — Add your tenants

Tenants are linked to properties. Add a tenant for each person currently renting from you.

1 Open Tenants

Click "Tenants" in the left sidebar.

2 Click "Add tenant"

The add-tenant form opens. Fill in the fields below.

3 Assign to a property

Select the property this tenant lives in from the Property dropdown. This links them so they appear in payment dropdowns.

4 Save

Click "Add tenant." The tenant appears in the table immediately.

Tenant form fields

FIELD	WHAT TO ENTER
First name *	Tenant's legal first name
Last name	Tenant's legal last name
Email	Used for contact reference (Vestry does not email tenants directly)
Phone	Mobile or home number
Property	Select from your saved properties
Move-in date	When the tenant moved in
Status	Active (current), Prospect (applying), or Past (moved out)
Notes	Any notes about the tenant — visible only to you

✓ Repeat for every active tenant. You can also add past tenants with Status = "Past" for record-keeping witho

Step 4 — Add leases (optional)

The Leases section lets you track lease start and end dates, monthly rent, security deposit, and renewal status. Vestry displays a progress bar showing how far through the lease term you are and alerts you when leases are expiring soon.

1 Open Leases

Click "Leases" in the left sidebar.

2 Click "New lease"

Fill in the lease details: tenant, property, start date, end date, monthly rent, and security deposit.

3 Save

The lease appears in the list. Click it to see the full detail panel on the right, including financial terms and a PDF download button.

■ Vestry flags leases expiring within 60 days with an amber "warning" badge so you can reach out to tenants

Step 5 — Record rent payments

Vestry tracks every payment you receive (and every expense you log). Payments are recorded manually — you log what you received, when, and how.

1 Open Payments

Click "Payments" in the left sidebar.

2 Click "Record payment"

The payment form opens.

3 Select property and tenant

Choose the property first — the tenant dropdown will filter to only show tenants at that property.

4 Enter amount and dates

Enter the amount received, the due date, and (for paid payments) the date you received it.

5 Choose status

Paid — received in full. Due — expected but not yet received. Overdue — past due. Partial — received partial amount.

6 Choose payment method

Bank transfer, Check, Cash, Venmo, Zelle, or Other.

7 Save

Click "Record payment." It appears at the top of the payments table immediately.

Payment status reference

FIELD	WHAT TO ENTER
Paid	Rent received in full. Shows green "Received" badge.
Due	Rent is expected — not yet received. Shows neutral badge.
Overdue	Past the due date without payment. Shows red badge and triggers dashboard alert.
Partial	Partial payment received. Shows amber badge.

✓ Best practice: Record each payment the day you receive it. The Dashboard automatically calculates your co

Understanding the Dashboard

The Dashboard is your financial command center. It updates automatically every time you record a payment or log an expense.

FIELD	WHAT TO ENTER
Collected	Total rent payments with status "Paid" for the current month
Outstanding	Sum of all "Overdue" payments — what tenants still owe you
Expenses	Sum of logged expenses for the current month
Net Income	Collected minus Expenses for the month
Collection rate	Percentage of active tenants who have paid this month
Overdue alert	Banner appears when any payment is marked Overdue
Recent payments	Your 5 most recent payment records with quick status view

Expense tracking

Log property expenses under the Expenses tab. Categories include maintenance, repairs, utilities, insurance, taxes, mortgage, and more. Expenses flow directly into your Dashboard net income calculation.

■ Export: Use the Export button on the Payments page to download a CSV of all transactions for your account

Plans & pricing

Vestry starts free. Upgrade when you need more properties.

	FREE	PRO — \$29/mo	PORTFOLIO — \$79/mo
Properties	1	Up to 5	Unlimited
Tenants	Unlimited	Unlimited	Unlimited
Payments	Track all	Track all	Track all
Expenses	Track all	Track all	Track all
Lease tracking	Yes	Yes	Yes
Reports	Basic	Full	Full
Priority support	—	Yes	Yes

To upgrade: go to Settings → Plan and select your plan.

Frequently asked questions

Does Vestry collect rent for me?

No — Vestry is a record-keeping tool. You collect rent however you normally do (bank transfer, check, Venmo, etc.) and then log it in Vestry.

Is my data secure?

Yes. Vestry uses Supabase (PostgreSQL) with row-level security — your data is only readable by your account. Passwords are hashed; we never store them in plain text.

Can multiple landlords share an account?

Each landlord needs their own account. Vestry does not yet support multi-user organizations, but it is on our roadmap.

Can tenants see the app?

Not yet. Vestry is currently landlord-only. A tenant portal is planned for a future update.

How do I change my email or password?

Go to Settings (gear icon in the sidebar) → Account to update your email, or Settings → Security to change your password.

What happens if I need help?

Email support@vestry.app and we'll respond within one business day.

Quick-start checklist

Use this checklist to confirm you're fully set up.

Account

- Created account at vestry.app
- Verified email address
- Signed in successfully

Properties

- Added all active rental properties
- Set correct address, type, and unit count for each
- Set monthly rent amount on first unit

Tenants

- Added all active tenants
- Each tenant is linked to a property
- Contact info (email / phone) filled in

Leases (optional)

- Added lease records for active tenants
- Start date, end date, and monthly rent are correct
- Security deposit amount recorded

Payments

- Recorded this month's received payments
- Any overdue balances logged as Overdue
- Dashboard shows accurate collection rate

Expenses

- This month's expenses logged with category
- Net Income on Dashboard is accurate

- ✓ Once all boxes are checked, share the app URL with your tenants so they can see that you're using a professional
